

Senior Pricing

The fact that our photography is exceptional leads many people to believe that they can't afford Rod Brown Photography's quality. The fact is that it is priceless! It has been our goal to provide a wide range of pricing options. We will work with you to help create a portrait package that meets your needs and fits within your budget. Anyone with a camera can take a picture, but there is a significant difference between a snapshot and a professional portrait.

For portraits ordered off our ala carte price list, you can purchase a portrait for as little as \$29 up to \$218 depending upon on the size and quantity of portraits you want. Our portrait collections start as low as \$179 with many other packages that include more poses and a wall portrait with a frame.

What you pay for portraits is important; we understand that price is sometimes a deciding factor when choosing a photography studio. Keep in mind that your portraits are very important to us; we take pride in what we create for you. The importance is these images should not be with the studio with the cheapest prices, instead you should look at many factors such as creativity, quality, and variety to name a few. At Rod Brown Photography you always get more than your money's worth, and a lifetime of treasured memories of your "once-in a lifetime" senior experience.
